DETAILED ACTION

This Office action has been issued in response to Decision from the Board of Patent Appeals and Interferences, as rendered 23 July 2009. It is important to note that claim 33 was inadvertently included in the Decision as a reversed rejection. However, the record is clear that claim 33 was canceled prior to appeal. Accordingly, this has been treated as a typographical error in the decision. Claims 22, 24-30, 53-55, and 59-60 are canceled in accordance with MPEP 1214.06. Claim 23 shall be amended as noted below. Claims 1-21, 23 (as amended herein), 31-52, 56-58, 62-63 and 65-66 (now renumbered 1-51, respectively) are allowed.

The period under 37 CFR 1.304 for seeking court review of the decision by the Board of Patent Appeals and Interferences rendered as noted supra has expired and no further action has been taken by appellant. The proceedings as to the rejected claims are considered terminated; see 37 CFR 1.197(b).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 22, 24-30, 53-55, and 59-60 are canceled in accordance with MPEP 1214.06.

Claim 23 shall be amended as follows:

23. A computer system comprising:
a central processing unit (CPU);

Art Unit: 2187

a first storage system that is coupled to the CPU to store information written from the CPU;

a second storage system;

at least one communication link coupling the second storage system to the CPU, the at least one communication link including at least one wireless connection, wherein the at least one communication link extends between the first and second storage systems such that the second storage system is coupled to the CPU via the first storage system;

a mirroring controller, responsive to the information being written from the CPU to the first storage system, to mirror at least some of the information being written from the CPU to the first storage system in the second storage system by transferring the at least some of the information over the at least one communication link;

[The computer system of claim 22,] wherein the at least one communication link includes a network cloud that comprises an internet shared by at least one other resource.

The following is an examiner's statement of reasons for allowance:

Claims 1-21, 23 (as amended herein), 31-52, 56-58, 62-63 and 65-66 (now renumbered 1-51, respectively) are allowed for the reasons set forth in the Decision of the Board of Patent Appeals and Interferences, rendered 23 July 2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to CHRISTIAN P. CHACE at telephone number (571)272-4190.
